The Voices of HB-101 Users.

- Harmless to human beings, animals and soil.
- Flowers, leaves and fruits become shiny and good style.
- Noxious insects and bad fungi are almost away from plants.
- Fresh and delicious taste of fruits, vegetables and cereals.
- Crop increases more than 30%.
- Plants don't fall down by heavy storm.
- Freshness after harvest become more than twice longer.
- Problems about acid rain and acid mist can be solved.
- Troubles with repeated cultivation of the same plant on the same ground don't occur.
- Degree of sweetness increases from 1 to 8 degrees.
- The plants vitalize....More Bigger, Tighter, Heavier and Earlier!
- You can cut down expense and gain more income.

How to Use Use from 1,000 to 100,000 times dilution by water.

1. Sprinkle **HB-101** (1,000 to 100,000 times dilution) on the soil from once to 3 times between harvest and next replant.
2. Dip seeds into **HB-101** (1,000 times dilution) for 12 hours. (Beans should be dipped just for a moment and leafy vegetables for three hours.)
3. Sprinkle **HB-101** (1,000 times dilution) on the ground just before seeding and just before replant.
4. Sprinkle **HB-101** (1,000 times dilution) on seedlings 3 times during the period of seedlings.
5. **HB-101** is very cheap. **HB-101** is used, 10ML to 100ML per 1000㎡, 1ML to 10ML per 100㎡, 0.1ML to 1ML per 10㎡. (1000 to 100,000 dilution.) once a week or two weeks. (To the soil and to the leaves.)
6. In case of hydroponic cultivation, **HB-101** is used 100,000 times dilution in water.

Ingredient

Extracts from cedar, cypress, pine and plantain. (It's very safe and you can drink **HB-101**)

Capacity Available

6ML, 50ML, 100ML, 500ML, 1L, 5L, 10L, 20L and so on.
